

Life Insurance Claim Management Software

ClaimFirst provides an efficient and accurate automated Life claims processing solution for insurance carriers and Third Party Administrators (TPAs).

ClaimFirst supports both group and individual lines of business in the claim management system. The system is claimant centric and a claim assessor can see all insurance policies for each claimant across all lines of business, including historical claims.

ClaimFirst's automated solution can completely or partly overtake manual processing allowing quick and accurate processing of claims; which will reduce reserves, and improve customer and employee satisfaction.

ClaimFirst's software solution is hosted on Salesforce.com's secure and reliable platform. The cloud-based application provides fast, anywhere anytime access; the flexibility to integrate with other applications; and the scalability to increase capacity as necessary.

With fast implementation (in as little as 90 days) and continual improvements, ClaimFirst gives you a competitive edge.

ClaimFirst offers full life cycle claims management for the full range of Life insurance benefits, which includes submission, eligibility, assessment, payments, and reporting capability
